2021/22 Winter Vaccines at Heald Green Health Centre 2, Dr Carmel Morris and Partners

Do not call us about the flu or COVID-19 booster vaccine. Stockport GP practices are offering vaccinations in different ways so that everyone who is eligible can be offered a vaccination. This is dependent upon a variety of factors including practice resources and vaccine availability.

Read the information below to find out how you can get your flu or COVID-19 booster vaccine.

Flu Vaccine: The flu vaccine is a safe and effective vaccine. It's offered every year on the NHS to help protect people at risk of getting seriously ill from flu.

We will contact you directly by letter, phone or text when it is your turn to come for your flu vaccine.

COVID-19 Booster Vaccine: The COVID-19 booster vaccine dose, which is available six months after the second dose, helps improve the protection you have from your first two doses of the vaccine. It helps give you longer-term protection against getting seriously ill from COVID-19. [Find out more about the COVID-19 booster vaccine and who can get it](#).

You will need to book your COVID-19 booster on the [National Booking Service website](#) or by calling 119, seven days a week, between 7am and 11pm. You can also look for a [walk-in COVID-19 vaccination site](#) convenient to you.
OR
We will contact you directly by letter, phone or text when it is your turn to come for the COVID-19 booster vaccine. Until then you don't need to do anything, but you should continue to follow the hands, face, space guidance, which will still save lives and reduce the risk of infection.

If you don't want to wait for us to contact you, visit the [National Booking Service website](#) or call the National Booking Service on 119, seven days a week, between 7am and 11pm. You can also look for a [walk-in COVID-19 vaccination site](#) convenient to you.

COVID-19 Vaccine First and Second Dose: If you haven't had a first or second dose yet, it's not too late. Visit the [National Booking Service](#) website or call 119 to book yours.

The coronavirus (COVID-19) vaccines are safe and effective. They give you the best protection against COVID-19. It is important you have the vaccine, even if you have had COVID-19 or think you have had the virus, because it will make your immune system stronger and reduce the risk of spreading the virus or having COVID-19 symptoms again.
