

SAY 'YES'

We are changing the way we share information about your health and care to help improve individual care, speed up diagnosis and treatment and deliver better local services.

When you access services across Stockport you may be asked by staff if they can access your health records.

By saying 'YES' and giving permission to see your health and care information will help to improve your care and help in understanding any health conditions or care plans you have.

You do have the right to say no to sharing your information.

Ask a member of staff for further information or visit www.stockportccg.nhs.uk
